

Task Cards will cover the following:

- the composition of the Earth's atmosphere
- the layers of the atmosphere
- the relationship between air pressure, temperature, and altitude
- the importance of the ozone layer

#1

Atmosphere

Which of the following is the most common atmospheric gas?

- A) Oxygen
- B) Nitrogen
- C) Carbon Dioxide
- D) Water Vapor

#2

Atmosphere

Most water in the atmosphere exists as _____.

#3

Atmosphere

True or False:
There is about 21% nitrogen in our atmosphere.

#4

Atmosphere

Describe the three physical states of water in the atmosphere.

preview

#5

Atmosphere

Which of the following is not a key component of the lower atmosphere?

- A) nitrogen
- B) oxygen
- C) carbon dioxide
- D) carbon monoxide

#6

Atmosphere

_____ is the second most common atmospheric gas.

#7

Atmosphere

List the layers of the atmosphere from lowest to highest.

#8

Atmosphere

True or False:

The troposphere is the layer of the atmosphere in which weather takes place.
